A farmer is travelling with a fox, a goose, and a bag of beans. During his journey, he comes across a river with a boat to cross it.

The farmer can only fit one thing in the boat with him at a time. If left alone together, the fox will eat the goose or the goose will eat the beans. How does the farmer get everything across the river safely?

1. Farmer takes the goose across the river and leaves it on the far bank.

2. Farmer returns alone to the near bank.

3. Farmer takes the fox across the river.

4. Farmer brings the goose back to the near bank.

5. Farmer takes the beans across the river and leaves them with the fox on the far bank.

6. Farmer returns alone to the near bank.

7. Farmer takes the goose across the river.

Result: all three — fox, goose, beans — are safely on the far bank.
